### 1. Background

1.1 At the November 2015 Board meeting a report was submitted from the Customer Review Panel relating to their review of Waverley's Customer Service. Seven recommendations were made and the Board agreed to six of these recommendations. It was also agreed that a further report should be submitted to the Board in April 2016 to provide an update on the implementation of these recommendations.

#### 2. Current Situation

2.1 An update on progress with the six recommendations is listed below:

Recommendation	Action Taken		
Emails to be more formal in their address (titles and surnames rather than first names)	Our staff have been advised to use a formal salutation when first contacting customers and to only use first names when given authority to do so.		
Staff to answer calls by a greeting and then give their name	Again, our staff have been advised of the correct protocol to use when answering the telephone.		
Online House Call long form to be made clearer	This form is based on third party software and therefore we are unable to make changes to the form.		
When a call-back is required, the initial call could be logged and a follow-up made to ensure the call back has been made.	Our staff have been advised to email details of any calls taken to their colleagues. It is the responsibility of the staff member receiving the email to ensure the call is dealt with.		
Information on Right-To-Buy made more available, with easier access to the forms.	We have reviewed the information used by our staff to deal with Right-To-Buy enquiries and updated this.		
Check all available information is correct and up-to-date.	We have regular reviews of our policies and procedures to ensure the information is kept up-to-date. We also update information to reflect legislative changes which affect our operations.

#### 3. The future/Conclusion

3.1 The agreed recommendations have all been implemented or are currently being put in place. It is difficult to accurately gauge the impact this will have given the large number of variables that impact on the delivery of customer services however it is considered that these recommendations will have a positive impact.

## 4. Risk Analysis

4.1 There is a risk that failing to implement these agreed recommendations will restrict our ability to provide the highest levels of customer service which in turn may adversely impact upon the satisfaction levels reported by our customers

#### 5. Recommendation

5.1 The Board is requested to note and approve the actions being taken to implement the Customer Review Panel recommendations.
