

## Ian Davidson

After retirement I was looking for something where I could utilise my skills and experience and at the same time find something I had never had previous involvement in. When I was approached about the possibility of joining the Waverley Housing Board, I felt it was the ideal opportunity to work with something completely different to my previous working roles.

I am so pleased that I took up the opportunity to join Waverley Housing Board. Working with a really dedicated team of staff and fellow Board Members who all are bought into our vision of providing the best for our tenants.

This is a forward looking, well run RSL that is focused on delivering the best outcomes for its customers and staff. Being part of a Board that drives the strategic direction presents a great opportunity to deliver for customers and enhance personal development.

On a personal level I am a keen gardener with a particular interest in growing dahlias. I am also an enthusiastic golfer and take a great interest in sport generally. I also love traveling and with family in New Zealand it gives a great opportunity to pursue that.
