

Johnny Pietranek

Like a good relationship it is mutually beneficial, I look forward to learning more with regards to the Waverley Housing(WH) Company structure, its obligations and process for solutions.

I offer a pragmatic approach to understanding situations, I can call upon my practical & managerial experience in the environmental / building compliance sector & contribute accordingly.

Thinking about joining Waverley Housing Board? Roll the dice, apply to Waverley Housing and come along to observe a board meeting. You'll not regret it.

On a personal level, first & foremost I like spending time with my family, but I also have a penchant for: listening to good music with the volume turned up, catching live music gigs, riding motorbikes, reading books from the local library where I have discovered so many interesting authors on recommendation of the librarians (support your local library), cooking (moderate success), gardening (less success) & walks / bike rides in the country.
